

Short Profile

Company Name:

OLWASTE RECYCLAGE SARL

Company Logo

Who we are

Ol-Waste Recyclage sarl is a Congolese woman owned waste management and recycling company based in Kinshasa DR Congo..

What we do

Our area of expertise is Household waste, Plastic waste and industrial waste. We serve more than 100 household clients and 4 major corporate clients for industrial waste. To fight against plastic pollution Olwaste Recyclage collects plastic bottles that litter the city and are exported to our partners outside Congo for recycling purposes.

What we offer

We offer good knowledge of the environment aspect of the country, with vast experience in waste management in Kinshasa and our partnership with the City which has a High growth potential.

What we need

We need assistance in obtaining recycling machines, such as compactors and shredders either hydraulic or electric machines ,with the capacity to handle more than 1000T of waste a day

Our Equipment

We currently don't own our own machine, the compacting is done at our local partner's facility
